Stitch counts in total: 725: 89, 699: 109, 321: 143, 434: 106, 3865: 98, 310: 2. Use 2 strands for crosses.

How to cross stitch

Prepare	Cut the Aida 3 in bigger than the design on every side. Fold it in four to find the centre and mark it with a pin.
Thread	Cut 18 in of floss, separate 2 of the 6 strands and thread them together. Don't knot the end.
Start	Count from the centre of the chart to the first stitch. Come up from the back, leave a 1 in tail and catch it under the first few stitches.
Half crosses	Work a row of half crosses (/) from left to right in one colour.
Complete	Come back from right to left with the top legs (\). All top legs must point the same way.
Finish	Weave the end under 4–5 stitches on the back and cut. Press face down on a towel.
